IMAGINE RECYCLING OPERATION TO REMAIN CLOSED

On March 27, Imagine the Possibilities announced the closure of its recycling drop-off center in Maquoketa in response to COVID-19. Today, Imagine announces the plan to keep the recycling operation closed in anticipation of the program's scheduled termination on June 30, 2020.

Imagine the Possibilities has been pleased to serve the greater Jackson County area with this service for many years. As announced in our press release dated December 30, 2019, the agency can no longer afford to operate the recycling program which would likely operate at an approximate \$180,000 loss per year given current market pricing.

Additional information regarding Imagine's response to the COVID-19 outbreak can be found at www.imagineia.org/covid-19-information.
