### **IMAGINE THE POSSIBILITIES CELEBRATES IACP REPRESENTATION**

The Iowa Association of Community Providers (IACP) gives support to organizations that provide behavioral and disability services to individuals across the state of Iowa. Their mission, to relentlessly advocate for Iowa providers to build healthy communities, is fulfilled through the work of their local leadership and their organizational Board of Directors. Today, Imagine the Possibilities celebrates the election of Tiffany Marlette, President of Strategic Growth and Chief Operating Officer at Imagine the Possibilities, to the IACP Board of Directors. In a recent conversation, Marlette expressed, "IACP is a pivotal influence in our industry. I am excited to contribute toward and learn from the continued legacy of leadership, ultimately shaping and mentoring future leaders, navigating policy, and creating the strategic framework for this Iowa landscape." IACP's positive impact aligns with Marlette's passion and vision for the future, creating the perfect partnership.

Marlette started working at Imagine the Possibilities over twelve years ago, where she has had many opportunities to work alongside incredible people who have empowered her to take the next step in her career. Marlette puts it this way, "My ability to learn, grow, and evolve at Imagine the Possibilities is because of excellent mentors who are vision-forward thinkers." It is that visionary mindset that serves as a catalyst for growth in any industry. At Imagine the Possibilities, we are proud to have Marlette be a representative on the IACP Board of Directors.

Imagine the Possibilities celebrates Marlette's recent election to this board, as she will continue to be an incredible advocate for the people we serve. Partnerships like this make it possible for us to live out our mission of **empowering people to reach individual achievement across the spectrum of life**. We believe fostering healthy communities through empowering individuals starts with the kind of advocacy IACP provides. Together, we believe the future is bright – because we're better together.
